

LG SKYSCRAPER

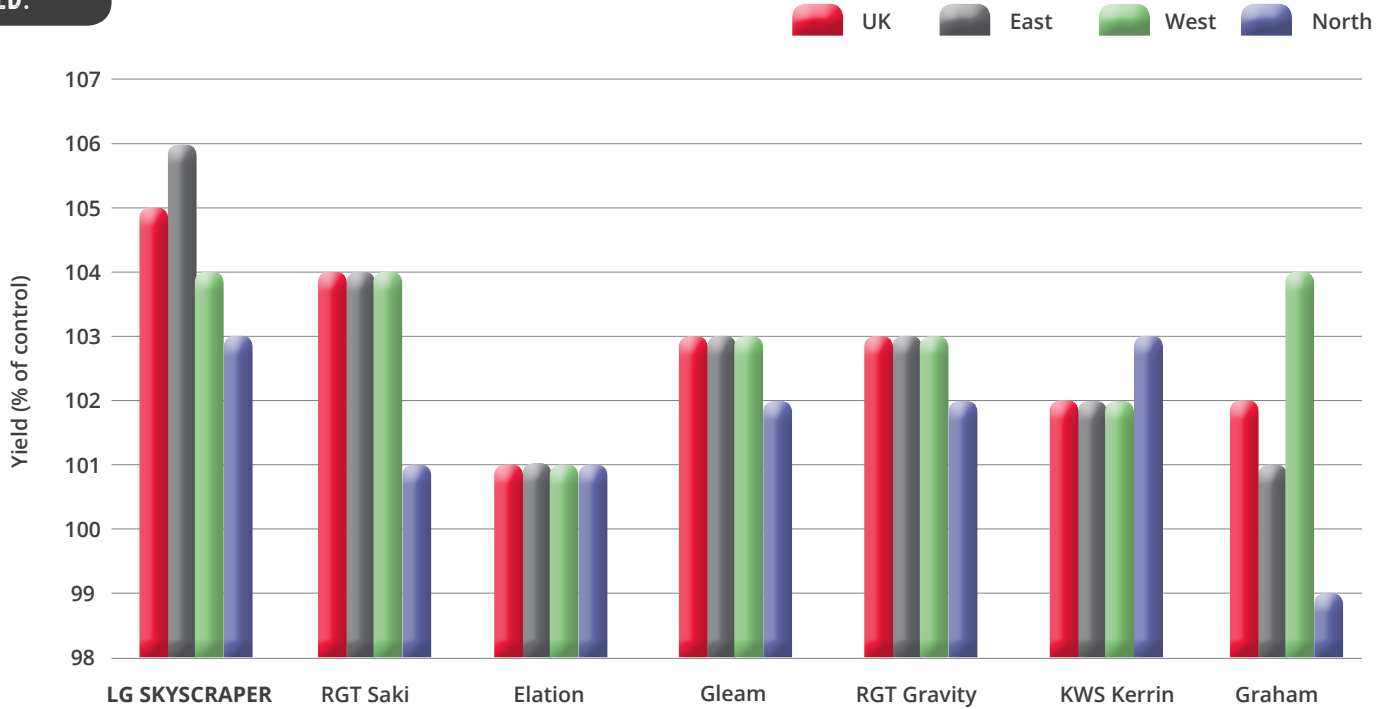

WINTER WHEAT

Parentage: (Cassius x NAWW 29) x KWS Santiago Breeder's Reference: LGWU 123 Trial Status 2020/21: AHDB Recommended

LG Skyscraper is the highest yielding winter wheat variety available on the AHDB Recommended List 2020/21. The variety offers a combination of strong agronomic characters, with excellent grain quality and the additional end-use market of distilling.

YIELD:

LG Skyscraper has consistently shown very high yields over differing seasons, regions, soil type, rotation and drilling date. Offering growers flexibility in their cropping and drilling decisions.

LG Skyscraper has performed very well as a second wheat.

AGRONOMIC CHARACTERISTICS:

	LG SKYSCRAPER	Elation	RGT Gravity	Gleam	KWS Kerrin
Resistance to lodging without PGR	7	7	7	7	7
Resistance to lodging with PGR	7	8	7	7	7
Height (cm)	91	82	87	86	85
Ripening (days +/- Skyfall)	0	+1	+1	0	+1

LG Skyscraper is a **taller strawed** variety, with similar straw strength as other leading commercial feed wheats that are taking considerable market share.

LG Skyscraper is **high tillering** with a semi-prostrate winter habit. The variety appears to have a **quicker speed of development** in the spring, with a more erect plant type.

The variety's good tillering and quicker growth in the spring, combined with its taller, larger biomass can be beneficial in a black grass situation.

Protein Content %	11.4	11.6	11.4	11.3	10.9
Hagberg Falling Number	218	206	204	219	151
Specific Weight (kg/hl)	76.9	77.4	76.0	76.3	76.3
UK Distilling	(Y)	Y	-	-	-

LG Skyscraper has a good disease resistance profile, showing good resistance for both yellow rust and *Septoria tritici*. Limagrain recommend a full protective fungicide programme for good disease control and attainment of full yield potential.

It offers the additional benefit of Orange Wheat Blossom Midge resistance, an important trait increasingly valued by growers due to restrictions on insecticide products.

LG Skyscraper is rated as positive for distilling, making it an attractive proposition for northern growers.

LG Skyscraper is the highest yielding feed variety with a good combination of agronomic merits and grain quality attributes, giving growers maximum potential return on their investment.

Dec 2019. Data from AHDB Recommended List 2020/21. On the 1-9 scales, high figures indicate that a variety shows the character to a high degree.
