Data from the PGRO Recommended List 2019

Tundra is a short strawed variety with good standing ability and early maturity.

The variety has very good agronomic attributes, similar in many ways to Wizard.

Tundra has a pale hilum colour as well as very good protein content, suited to the premium export markets for human consumption.

The variety is also suitable for micronizing and animal feed.

Tundra, as with all current PGRO recommended winter beans, is a colour flowered and high tannin type.

May 2019. Data from the PGRO Recommended List 2019/20. On the 1-9 scales, high figures indicate that a variety shows the character to a high degree.
